## PROFESSIONAL PROFILE

Junior software developer passionate about artificial intelligence and scalable software architecture. Basic knowledge of Python, API integration, and databases. Committed to continuous improvement and creating innovative solutions. Additionally, I have experience in frontend development with HTML5, PHP, and Bootstrap for web development, and basic knowledge of Flutter. On the backend, I have experience with MySQL, PostgreSQL, and some exposure to Firebase.

---

## WORK EXPERIENCE

Capgemini | 2022

- Developed user interfaces with Flutter for an internal project.
  - Collaborated in agile teams, applying UI/UX best practices.
  - Integrated APIs and optimized application performance.
- 

## EDUCATION & TRAINING

### Bootcamp in Data Science & Artificial Intelligence

Hack a Boss | 2024 - 2025

- Applied Python in Machine Learning and Generative AI projects.
- Data modeling and analysis for process optimization.
- Git workflows.
- Agile methodologies (SCRUM).

### CFGS Web Development

CIFP Suances | 2020 - 2022

- Developed web applications with HTML, PHP, Bootstrap, JavaScript, and MySQL.

### High School Diploma in Science & Technology

IES La Magdalena | 2017 - 2019

---

## TECHNICAL SKILLS

### Backend:

- Python (Streamlit, FastAPI)
- Microservices and FastAPI
- SQL Databases (MySQL, phpMyAdmin, Workbench, PostgreSQL)
- PHP

### Frontend:

- HTML, JavaScript, Flutter
- CSS, Bootstrap

### Tools & DevOps:

- Git/GitHub
- UX/UI
- OpenAI API integration
- Agile methodologies (SCRUM)

---

## LANGUAGES

 **Spanish:** Native

 **English:** Intermediate (B1)

---

## SOFT SKILLS

- ✓ Problem-solving
- ✓ Teamwork
- ✓ Assertive communication
- ✓ Organization and leadership
- ✓ Adaptability and self-learning
